Filippo Gambarota

2022-2023

Section 1

Sezione 1

R Markdown

This is an R Markdown presentation. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more (Zhang et al. 2012) details on using R Markdown see (Williams et al. 2004) http://rmarkdown.rstudio.com.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. (Wierzchoń et al. 2016)
